

# home decor: faux floral branches

## What you'll need:

1. Sellotape Sticky Dots Mini Permanents
2. Assorted pom poms in varying sizes & colours  
*Available from craft shops or discount/bargain stores*
3. Small to medium branches to fit your vase  
*Available from home decor stores, discount/bargain stores or collect them naturally from the garden*
4. Vase of your choice

**TIP:** Spray paint or dip the branch tips into paint pots to add more colour to your branches. White, grey or silver paints will perfectly complement any Winter decor.

## What to do:

1. Place the branches inside the vase. Arrange them so that the shorter branches are layered amongst the longer branches.
2. Remove one of the backing liners from the Sticky Dots and attach to the pom pom. Then attach the adhesive side of the pom pom to the tip of each branch.
3. Continue using Sticky Dots to attach the pom poms onto each crease or nodules of the branch.
